

# Khushi Shrivas

Bhopal, Madhya Pradesh | 8827672724 | khushishrivass2@gmail.com | <https://github.com/khushi-dev15>

## Professional Summary

---

Computer Engineering student, with strong foundation in SQL, Oracle, and full-stack web development. Hands-on experience with HTML, CSS, JavaScript, React, Node.js, and Express, along with database-driven web-applications. Familiar with ETL fundamentals and data transformation using SQL, SDLC concepts, and version control using Git. Actively seeking an entry-level role to apply technical and problem-solving skills in real-world projects.

## Education

---

Bansal Institute of Research Technology and Science, Bhopal  
Government Subhash Higher Secondary School, Bhopal  
Rose Mary Higher Secondary School, Bhopal

B.Tech,CSE | CGPA: 7.18 | 2022 – 2026  
Class XII | 74% | 2022  
Class X | 87.33% | 2020

## TECHNICAL SKILLS

---

Language : JavaScript  
Frontend : Html,Css, Javascript, React.js, Redux toolkit, GSAP.  
Backend : Node.js, Express.js.  
Database : SQL, Oracle, MongoDB.  
Tools & API : Git, Github, Restful API, Socket.io, Gemini API, Multer.  
Concepts : Basic Data Structures & Algorithm, SDLC.

## Experience

---

**GrowthAddicted – Onsite Bhopal (Software Developer Intern)** (August 2025 – November 2025 )

- . Contributed to the frontend migration of a legacy PHP website to React.js, improving scalability and user experience.
- . Implemented responsive UI using React, HTML, CSS, and JavaScript.
- . Optimized components for better performance and reusability.
- . Worked closely with the team to understand requirements and deliver features on time.

## PROJECTS

---

### 1.Prepmate-Ai | Mern Stack, Gemini API

[Live link](#)

Technologies Used: React.js, Node.js, MongoDB, Express.js, JWT, Firebase, REST API, CSS

Designing and implementing a fully functional web application for interview preparation using Gemini AI for personalized Interview Preparation.

Developed RESTful APIs with Node.js and Express.js for seamless backend communication and data handling. - Integrated authentication using JWT to ensure secure user login and session management.

### 2.EatSafe – Street Food Trust Meter

[GitHub](#)

Built a real-time platform that calculates hygiene trust scores for street food vendors using crowd-sourced data.

Implemented interactive map, time-based safety, and rolling trust logic for accurate, dynamic ratings.

Tech: React, Node.js, Express, MongoDB, Mapbox.

## ACHIEVEMENT

---

1. Designed, developed, and deployed **PrepMate- AI**, an AI-driven full-stack MERN application for interview preparation.
- 2.Contributed to real-world web application development during internship at **GrowthAddicted**.
